

NUMERICS UNLIMITED

PRECISION MACHINING

Serving customers in Western Ohio and across the USA. Current customer solutions include very large and small cast iron parts for the natural gas industry, intricate aluminum castings for large heating and ventilation installations, and large machined components for molds and die applications. We service local customers with their machining needs including O.D. Grinding, Surface Grinding, Milling, Turning, Boring, and Drilling.

ISO 9001:2000 Registered
